

ORBIT GRID — DEMO VIDEO SCRIPT

2.5-Minute Video Cheat Sheet • Easy Spoken Words & Exact Screen Actions

0:00 - 0:20 (20s)	1. The Problem & What Orbit Grid Does Screen: Show browser on http://127.0.0.1:8000/ (Login Page). ■ WHAT TO SAY: “In India, companies waste billions of rupees on transport because they guess where to place warehouses. This is Orbit Grid—a fast, intelligent system that calculates the exact best warehouse locations automatically at zero cost.”
0:20 - 0:40 (20s)	2. Easy Evaluator Login & Map View Click: '1-Click Hackathon Evaluator Access' → Scroll down to the Command Center. ■ WHAT TO SAY: “Judges can log in instantly with our 1-click access button. This brings us to the live Command Center—a clean, fast interactive map built specifically for Indian logistics.”
0:40 - 1:15 (35s)	3. Clean Slate & Business Setup Click: 'Business & Network Setup' button. Type: 'Textiles' • Existing Hub: 'Pune' • Warehouses: 2 → Click 'Apply Setup'. ■ WHAT TO SAY: “The map starts completely clean without fake data. In the Business Setup window, we enter our business type and our current warehouse in Pune. The system marks our Pune hub in amber and prepares to optimize new warehouses around it.”
1:15 - 1:50 (35s)	4. 1-Click Solver & Instant Savings Select: Region: Maharashtra → Click 'Run Optimization Solver'. Show: Warehouses WH-1 & WH-2 appear • Point to 77% Distance Reduction on top. ■ WHAT TO SAY: “Next, we select Maharashtra and click 'Run Optimization'. In just 3 milliseconds, it calculates optimal locations and connects them directly to real industrial zones like Chakan MIDC. Delivery distance drops by 77%, cutting transport costs by 64%!”
1:50 - 2:20 (30s)	5. Viability Report, Green ESG & AI Copilot Click: 'Viability Dossier' (show modal, close) • Point to Green ESG cards • Click 'AI Copilot'. ■ WHAT TO SAY: “Clicking 'Viability Dossier' gives us a full financial cost and rent breakdown. It also tracks green impact, showing saved diesel and CO2 reduction. Our built-in AI Copilot clearly explains the business strategy behind each hub.”

2:20 - 2:45
(25s)

6. Auto-Save & Conclusion

Click: 'Save Analysis' → Point to 'Presentation Deck' in top navigation.

■ **WHAT TO SAY:** “All results save directly to our database so nothing is lost. We also built an interactive 10-slide presentation deck right into the app.

Orbit Grid turns weeks of manual consulting into an instant decision. Thank you!”

Pro Tip for Recording: Keep browser in Full Screen (F11) • Speak calmly and pause 1 second before each click.
